# LIVING IN THE SHADOWS OF EXCLUSION

A Media Alliance project/CitiLite Productions Film

One of the few documentaries to focus on Asian American LGBTQ families, four longtime couples speak out on Marriage Equality in the face of California's virulent Proposition 8 campaign. Narrating stories and experiences that personalize these issues for general audiences, they speak of life and love, and the challenges they faced under Prop 8, the U.S. federal Defense of Marriage Act, and immigration laws that have historically devastated LGBTQ bi-national families. With the passage of the California Fair Education Act, this film fills a void in the dearth of available educational materials and community resources.
